

I have written the piece not as a social activist but as a security professional on anti insurgency operations who has fought militancy/insurgency all around (Punjab/Kashmir/Assam/Nagaland/Manipur) the country. Those pictures and your people being killed like sitting ducks in double digits, your Inspector General's (Karkares/Kamtes) getting killed like sitting ducks reflects upon the high standards of training and professionalism and testimony to leadership of your highly decorated pseudo Generals. Better you make all your DGs/IGs/DIGs/SPs perform as company commander/platoon commander first or simply give them designation of ministers of CRPF/BSF and then allow them to mobilization to drain the public exchequer by getting own CPMF people killed in hordes.

Simply providing disruptive pattern uniforms and arming people with automatic weapons amounts to sacrilege on profession of arms. Please, be aware of the enemy within. Our pseudo Generals are responsible for hundreds of our men in uniform being killed, holding press conferences after fake encounters/ investigation goof ups in the state police and pleasing political leadership is different than counter insurgency operations. CI Ops are long term battles to win back the trust of people and they are not all about adding to the number of insurgents killed.

Thought you should know.

with best wishes
